Battery Energy Storage (BESS)	●	●

These are the boundaries of our appetite:

Strong underwriting appetite

Selective appetite
 Appetite for incidental % as part of Major Programmes

In between lies a spectrum of risks we assess and underwrite on their own individual merits.

Subject to AIG's Environmental, Social and Governance (ESG) commitment

Claims help when it matters most

The AIG Energy Claims Promise affirms that our dedicated team of claims experts will mobilise in rapid response to a covered event and, after coverage is confirmed, will advance our policyholders up to 50% of our share of the agreed estimate within 7 days, giving them the immediate working funds they need for damages, repairs, clean-up costs and extra expenses.

What does it cover?

- Property damage/repairs
- Clean-up costs
- Extra expense/additional increased cost of working

The estimate is to be agreed between the policyholder, broker and the AIG representative, based upon reasonably available information. This payment is made on an unallocated basis.
